Portfolio: <https://frankadzua.vercel.app>

PROFESSIONAL SUMMARY

Full-Stack Software Developer with experience designing and developing web applications and business systems using JavaScript, TypeScript, React, Next.js, Node.js, Express, Java, Java EE, PHP, MySQL, PostgreSQL, MongoDB and Prisma. Experienced in building full-stack applications, REST APIs, authentication systems, database-driven solutions, third-party API integrations, payment processing and production deployments.

Has developed both enterprise-style Java applications and modern web applications, including school management systems and an email/survey platform integrating Google OAuth, Mailgun and Stripe. Also brings practical ICT management experience from working in an educational environment, combining software development with systems administration, technical support and technology operations.

CORE TECHNICAL SKILLS

Languages: JavaScript, Typescript, Java, PHP, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Shadcn/ui, Redux, React Hook Form

Backend: Node.js, Express.js, Java EE, JSF

Databases & ORM/ODM: PostgreSQL, MySQL, MongoDB, Prisma, Mongoose

APIs & Integrations: REST APIs, Google OAuth, Google APIs, Third-Party API Integration

Authentication & Security: Google OAuth, Session-Based Authentication

Payments: Stripe API, Stripe Checkout, Stripe Webhooks

Email Services: Mailgun

Deployment & Hosting: Vercel, Render, Railway, GlassFish

Development Tools: Git, GitHub, VS Code, NetBeans, npm

PROFESSIONAL EXPERIENCE

ROYAUTE ACADEMY — ICT DIRECTOR

Utako, Abuja, Nigeria | 2022 – 2025

- Managed ICT operations and technology-related activities within the school environment.
- Provided technical support and troubleshooting for staff, students and school systems.
- Supported the implementation and effective use of technology across academic and administrative activities.
- Developed and maintained software solutions to support school management and administrative processes.
- Provided ICT guidance and technical assistance to users.
- Combined ICT administration with software development and systems management responsibilities.

YIAGA AFRICA — DATA ENTRY CLERK

Abuja, Nigeria | February 2023 – March 2023

- Performed accurate data entry and processing activities.
- Maintained data quality and consistency while handling structured information.
- Supported organizational data management and administrative processes.

CENTRAL SOFT SUPPORT SYSTEMS (CS3) — ASSISTANT SOFTWARE DEVELOPER

Maitama, Abuja, Nigeria | 2020 – 2022

- Assisted in the development and maintenance of software applications.
- Participated in application development, debugging and technical problem-solving.
- Worked with databases and application technologies to support software solutions.
- Gained practical experience in software development and business application systems.

SELECTED SOFTWARE PROJECTS

Modern School Management System — 2026

Technologies: Next.js, TypeScript, React, Tailwind CSS, Shadcn/ui, Node.js, Prisma, PostgreSQL

- Developed a modern full-stack school management platform.
- Implemented role-based functionality for different categories of users.
- Developed student registration and management functionality.
- Implemented database relationships and school-specific data structures.
- Built frontend forms and interfaces using React, TypeScript and React Hook Form.
- Developed backend APIs and database operations using Node.js and Prisma.
- Integrated PostgreSQL as the primary relational database.
- Implemented production deployment and environment configuration.

School Management System — 2022

Technologies: Java EE, JSF, MySQL, GlassFish

- Developed a full-stack school management application.
- Built server-side application functionality using Java EE.
- Developed user interfaces using JavaServer Faces (JSF).
- Implemented database-driven functionality using MySQL.
- Deployed and tested the application using GlassFish Server.
- Developed the system as an integrated solution for school administration and management.

Emailing & Survey Platform — 2025–2026

Technologies: React.js, Next.js, Redux, Node.js, Express.js, MongoDB, Mongoose, Google OAuth, Mailgun, Stripe

- Developed a full-stack emailing and survey platform.
- Built frontend interfaces using React.js and Next.js.
- Developed backend services and REST APIs using Node.js and Express.js.
- Implemented MongoDB data storage using Mongoose.
- Integrated Google OAuth for authentication.
- Implemented session-based authentication and account management functionality.
- Integrated Mailgun for transactional email delivery.
- Integrated Stripe for payment processing.
- Implemented Stripe Checkout and webhook handling.
- Configured production deployment across frontend and backend hosting environments.

Sales Forecasting System — Undergraduate Project

Technologies: PHP, MySQL, Linear Regression

- Developed an application for forecasting sales of Dangote products.
- Implemented a linear regression model for sales forecasting.
- Built database functionality using MySQL.
- Developed the application using PHP.

EDUCATION

UDEMY

Full-Stack Web Development — Node with React

February 2025 – August 2025 | Remote

VS45 TECHNOLOGIES LIMITED Gboko

Diploma — Software Development

July 2018 – July 2019 | Benue State, Nigeria

UNIVERSITY OF AGRICULTURE, MAKURDI

B.Sc. Statistics / Computer Science

2013 – 2021 | Benue State, Nigeria

CHRIST THE KING COLLEGE, ADIKPO

SSCE — WAEC

2006 – 2011 | Benue State, Nigeria

PROFESSIONAL INTERESTS

- Full-Stack Web Development
 - Software Engineering
 - Business Application Development
 - Enterprise Application Development
 - Web Technologies
 - Backend/API Development
 - Database Systems
 - Cloud Deployment
 - Systems Development
 - ICT Management
-

PROFESSIONAL STRENGTHS

- Full-stack application development
 - Problem solving and debugging
 - Database-driven application development
 - API integration
 - Authentication implementation
 - Payment integration
 - Software deployment
 - ICT systems management
 - Technical support
 - Business process automation
-

ADDITIONAL PROFESSIONAL RECORD

Commendation:

Received a commendation from the Deputy Chairman, Nassarawa Eggon Local Government Area, Nasarawa State, for training corps members in website design.

CAREER DIRECTION

Seeking opportunities as a Full-Stack Software Developer, Software Developer, Web Developer, JavaScript/TypeScript Developer, Node.js Developer, Java Developer or related software engineering professional, with particular interest in developing practical web applications and business systems
